The regional AIAA/ASME Oklahoma Symposium aims at fostering communication among the engineers of Oklahoma’s universities and industries. The symposium regularly brings together about 100 participants from different industries and from the University of Oklahoma, the University of Tulsa, Oklahoma State University, The University of Central Oklahoma, The Oklahoma Christian University. Graduate and undergraduate students present about 60 technical and scientific presentations. A luncheon speaker is invited to inspire the student (and older) engineers.

The 2020 symposium will be conducted in the Advanced Technology and Research Center (ATRC) at Oklahoma State University in Stillwater on Saturday April, 4, from 8 to 2pm.

Sponsorship
Helping sponsor the symposium will provide Oklahoman companies with the opportunity to advertise to the Mechanical and Aerospace graduate students and the best undergraduate students from programs in Oklahoman Universities. Undergraduate students presenting in the symposium are generally high performers, who have time to do research in addition to their course load. A large part of our graduates aims at staying and working in Oklahoma and could become contributors to your teams.

We propose three levels of sponsorship:

- **Silver sponsors: $250**
  Silver sponsors will sponsor the name tags and lanyards, or the printing of the programs. The sponsor is welcome to place documentation or brochures about their company at the registration table. They will be mentioned in the symposium program with their logo.

- **Gold sponsors: $500**
  Gold sponsors will sponsor the coffee break. The sponsor is welcome to place documentation or brochures about their company at the coffee break table. They will be mentioned in the symposium program with their logo.

- **Platinum sponsors: $1,000**
  Platinum sponsors will sponsor lunch. The sponsor is welcome to place documentation or brochure about their company at the lunch table. They will be mentioned on the first page of the program with their logo.

Please feel free to contact us with any question you may have regarding the symposium.
